Bringing Situational Awareness to K-12 Schools

SARA

An automated alerting engine that integrates disparate alarm and communication systems for centralized monitoring, alerting and reporting. Ensuring that critical data is collected, processed, analyzed and delivered to the right people so they can address an unfolding situation appropriately.

There are 1,100+ facilities currently equipped with our SARA system. On average, each facility has 3-5 staff members using the SARA dashboard everyday to prevent ignorance-based loss by ensuring that alerts — are delivered to people who need to know what's happening, where it's happening and how to respond.

CATIE

An always-on, in-room communication and self-service software application that provides intercom, message center, electronic bulletin board/digital signage and concierge capabilities.

1,685 people are equipped with a personal CATIE device. In addition, an average of 3-5 staff members in each facility are using CATIE to automate their day-in and day-out workflow, from dining administration to maintenance requests.

SARA's eMessenger

An advanced alerting capability delivering browser-based pop-up alerts to networked desktops/ laptops.

200+ facilities are equipped with SARA's eMessenger. An average of 3-5 staff members in each facility use this application to deliver alerts, announcements or courtesy reminders to hundreds or thousands of networked desktops or laptops within these environments.

neighborhood bridges

A self-service platform, developed by Status Solutions, that allowing communities to advocate for their children, seniors and neighbors, identifying specific needs — then filling those needs.

Each individual community website gets an average of 2,426 views monthly.
